**Number and Status of Vacancy:**   One temporary vacancy.  Five-year Term position under Section 66 of the Civil Service Law In-sourcing Initiative.

**Travel Requirements:**       Occasional

**Duties:**  This position ensures implementation and configuration of the PeopleSoft Financials environment, configuration and customizations for the PeopleSoft system and integration with other systems as required.

- Analyze the existing business requirements and documentation and propose solutions using combined assets including PeopleSoft Financials and identify all components required to implement a complete business process;

- Work with a team to complete detailed system design, a new system and/or make changes to an existing system using the standard DOL framework design in a Service Oriented Architecture and use object oriented design techniques to break down functional modules;

- Identify the programs, processes within PeopleSoft Financials and integrate them with other components needed to accomplish the system requirements;

- Develop or create custom configurations for PeopleSoft Financials as well as specifications for integration tools using PeopleSoft Integration Broker, People Tools and People Code;

- Document or review and approve documentation produced by other staff, that describe the design and programs using the DOL standard documentation such as but not limited

to business process models, deployment log, program documentation and PeopleSoft UPK;

- Review systems documentation, check for completeness and ensure project artifacts are organized in Rational Clear Case;

- Test each business process developed or modified using PeopleSoft Financials to ensure it works correctly, either as a stand-alone component or with any other related programs or systems and assure the requirements/specifications are satisfied;

- Determine performance of new software;

- Test process to ensure it works efficiently within the entire system;

- Diagnose and propose solutions when issues arise in the interface between PeopleSoft and other elements of the environment including the custom code, integration/mediation layer, operating system and application server;

- Implement the new or modified system, review the system documentation and check system for completeness;

- Ensure identified bugs are prioritized and fixed;

- Follow up implementation with a lessons learned effort; and

- Attend and participate in project team meetings, and report progress.

**Required Qualifications:**  Seven years of experience as a PeopleSoft Financials developer at version 8.4 or higher.

The above experience must include all of the following:

- Developing 2 full life-cycle PeopleSoft Financials implementation or upgrade projects at version 8.4 or higher ( including the analysis, design, development, implementation, production support, and maintenance);
- Developing custom reports, screen customizations, database changes, and system interfaces using PeopleTools;
- General Ledger (GL) development;
- Integration Broker and exposing PeopleSoft components as services;
- Data Mover Scripts, SQL, and Application Engine to load data;
- PeopleSoft upgrades, applying patches/fixes, and running and analyzing the compare reports;
- PeopleSoft infrastructure, PS Home, and PIA;
- AIX, Web Logic, and Tuxedo environments;
- Developing reports using SQR and Crystal Reports;
- PeopleSoft infrastructure, PS Home and PIA
- AIX, Web Logic and Tuxedo
- SQR and Crystal Reports
- PeopleSoft development in two of the following areas:

  - Accounts Payable (AP)
  - Accounts Receivable (AR)
  - Project Costing (PC)
  - Purchase Order (PO)

- Cash Management (CM)
- Expenses
