JOB VACANCY

Response Due Date: July 27, 2011

Title and Salary Grade: Information Technology Specialist 4 (Special Expertise), NS
(Equated to Grade 25)
Item # 51236

Salary Range: From $73,768 to $92,974 Annually

Negotiating Unit: PS&T

Location: **Planning and Technology,**
Standards and Security Unit
W. Averell Harriman State Office Campus, Bldg 12
Albany, NY 12240

Number and Status of Vacancy: One temporary vacancy. Five-year Term position
under Section 66 of the Civil Service Law In-sourcing
Initiative.

Travel Requirements: Occasional

Duties: This position serves as the lead Oracle database administrator designing, developing, implementing, installing, maintaining and updating Labor Department's Oracle database environments. Oracle is critical to the UI, Employment Services, and Worker Protection programs and also serves to support the Administrative areas. NYSDOL has considerable investment in Oracle Database technology and it is cost prohibitive to obtain additional licenses and train existing staff.

- Perform advance database programming;
- Implement, maintain, and manage agency wide database environments;
- Write, install and modify Oracle database software;
- Evaluate new software releases and determine best application;
- Work with IT professionals and vendors to establish best practices; and
- Train IT staff in Oracle database administration and programming.

Required Qualifications: Six years experience analyzing, designing, implementing, maintaining and updating Oracle database environments.

The above experience must include all of following:

- Oracle Database Administrator/Architect working with the development of large scale, complex applications involving on-line and batch environments;

PT 145 (9-96)   The Department is committed to the policy of Affirmative Action to achieve full and
equal employment opportunity for minorities, women, disabled veterans and Viet Nam
Veterans.

- Creating, administering, and extending data models and tuning Oracle databases to interface with Service Oriented Architecture (SOA) services;
- ETL (Extract, Transform, and Load) interfacing with SOA services;
- Utilized Data Warehouse, COGNOS reporting tools and Unix scripts to support Oracle database environments;
- SQL, PL/SQL, stored procedures and triggers, and Oracle tools including Designer and Oracle Rman/Backup Recovery;
- Creating, planning and implementing migration strategies to move very large databases onto new hardware;
- Enterprise database design using Erwin Data Modeler;
- Governmental systems for unemployment insurance, job training, job matching or employment security; and
- Certification in Oracle 10G with experience installing, tuning, and performance maintenance of Grid Control, Oracle 10g Application Server and Oracle Data Guard.

Additional Comments:

THIS WILL BE A TEMPORARY APPOINTMENT FOR A DURATION OF UP TO FIVE YEARS UNDER CHAPTER 500 SECTION 66 OF THE IT IN-SOURCING INITIATIVE. After serving two continuous years, candidates will have the opportunity to compete in an exam, which may result in a permanent appointment. For more information on the IT In-Sourcing Initiative, please visit: http://www.budget.state.ny.us/guide/ITInsourcing/IT_insourcing.html.

If you meet the required qualifications and are interested in applying, please forward a cover letter, resume and if applicable, documentation validating your educational credentials. Please reference job title and item number on your cover letter and/or resume when responding. Forward to one of the following contacts:
